+234-816-507-0331

Software Developer skilled in React, Next.js, TypeScript, and modern web technologies. Experienced in building responsive, high-performance applications, optimizing UX/UI, collaborating across teams, and delivering scalable solutions using Agile methodologies and best coding practices.

Work Experience

Frontend Developer

Nov 2024 - Present

[EnggeAm](#)

- Developed responsive web components including sidebars, navigation bars, and complex dashboard interfaces using React, Next.js, Tailwind Css and other tools.
- Built and implemented feature-rich pages for core platform functions including posts management, points purchase and management system, engagement flagging and dispute resolution.
- Created comprehensive documentation for reusable components using Storybook, improving team efficiency and code consistency.
- Contributed to a successful platform launch that acquired 4,000 users within the first two weeks, with projected growth to 24,000+ users within the first quarter.
- Integrated Flutterwave payment API for monetary transactions, implementing secure payment flows for points purchase and subscription management.
- Collaborated with backend developers to design and implement RESTful API integrations, ensuring seamless data flow between frontend and backend services.

Junior Frontend Engineer

Jul 2024 - Dec 2024

Cimpla Africa

- Developed and maintained reusable component libraries using React and Typescript, reducing development time drastically and ensuring UI consistency across the platform.
- Implemented robust front-end solutions for a fintech platform, including complex functionality like scorecard systems, decision engines, and rule-based processing modules that enhanced user experience and platform capabilities.
- Integrated backend APIs using Swagger documentation to test endpoints, resulting in efficient data flow and reduced integration errors.
- Documented components with Storybook, creating a living styleguide that improved team collaboration, accelerated onboarding, and standardized development processes.

Frontend Developer Intern

Jun 2024 - Oct 2024

Tiago

- Designed and implemented responsive authentication interfaces using React, Tailwind css and Typescript, resulting in improvement in user login completion rates and enhanced security.
- Developed interactive dashboards and portfolio pages, incorporating data visualization components that improved user engagement and financial decision-making.
- Collaborated cross-functionally with backend developers, UX designers, and product managers to deliver complex features on schedule, participating in daily standups and sprint planning.
- Leveraged Jira for agile project management, efficiently tracking development tickets through the lifecycle, reducing feature delivery time, and maintaining high code quality standards.

Core Skills

HTML5, CSS3, Javascript (ES6+), Typescript, React.js, Next.js, Tailwind CSS, Redux, Zustand, Git, GitHub, Yarn/npm, REST APIs, GraphQL, Agile Development (Scrum/Kanban), Problem-Solving & Debugging , Attention to Detail , Effective Cross-Functional Collaboration, Strong Communication Skills, Time Management & Task Prioritization, Adaptability to New Technologies , Project Ownership and Initiative, Firebase (Authentication, Hosting basics) , Supabase (CRUD operations) , Figma (for UI/UX collaboration), Google Workspace (Docs, Sheets, Communication)

Education

University of Ilorin

Jun 2021 - Jul 2025

Bachelor of Science Information Technology

GPA: 2nd Class Upper Honors

Interests

Cybersecurity, Web3, AI/Prompt Engineering
